Always innovative:
We plan, we research & we coordinate each of our steps through development process
implementing top technology in our work stations, promising technological advantages to our end users

Modern Art:
We merge art into technology by hiring painters & sculptors to be part of our R&D team to ensure artistic
values to our power stations for touching the Basic human instincts of harmony, balance & rhythm.

Make it comfort:
We hire ergonomics specialists to assure optimal interaction between each of our power stations
and the people who use them for better human comfort, health and performance during usage.

Fit for any furniture:
You can simply place our product in your furniture, conference hall, desk, table, kitchen sofa and many other.
In addition to that, no skills or prior experience is needed in installing and using it. This is the reason why our products are preferred in
high tech companies and offices.

Easy to install:
No need to be Electrician to install the power station. By the modular design and by the usage
of GST connectors, the products can be installed and connected to power easily without the need of professional.

Power & Temperature:

Operating voltage: 230VAC 50VHz
Maximum current: 16A
Work Temperature: up to 70°C

Structure & color:

Flush, solid and durable structure, you will find Innera Leisure is reliable unit with long life expectation.
Innera Leisure is available in Silver anodized complete cover with black sockets.
Custom colors available on demand – minimum order will be requiered.
Materials: cover - aluminium, sockets - PC.

Modules & combination:

The Innera Leisure can be configured with a combination of power, data, communication, or any other Keystone system component.

Cable and connection to power:

The Innera Leisure is supplied with 0.4 meter cable (HO5VV-F 3x1.5mm^2) with male GST 18/3 connector.
In order to connect the product to power you should buy the power cable separately.
Testing: 100% testing
continuity, polarity, insulation & earth
Certification: SII test certification
Warranty: 3 years Warranty by German registered company
Installation: Power saw, Power drill and hole cutter required, please read the installation instruction prior to installation.
Packing: each item in a box

Innera Piatto

Innera Piatto - practical power station which allows efficient
solution for easy and immediate access to power
very easy installation method
With Built in Male & Female GST connectors, it can be chained to other Euficio products simply
can be installed almost anywhere and in variety of configurations and for multiple applications
# Innera Piatto

## Installation configurations:

In Desk

In any requirement of Hidden power and data
station beneath the surface with very easy installation procedure.
In Wall / In Panel

it can be mounted in walls/panels, whenever power and data stations are required
with avoiding the need to make changes in the construction or to use electrician.

Power & Temperature:

Operating voltage: 230VAC 50VHz
Maximum current: 16A
Work Temperature: up to 70°C

Structure & color:

Compact, but with solid and durable structure, you will
find Innera Piatto is reliable unit with long life expectation.
Innera Piatto is available in Silver anodized frame - black
sockets and end caps. Custom colors available on
demand – minimum order will be requiered.
Materials: cover - aluminium, sockets - PC.

Modules & combination:

The Connecto Key can be configured with power,
Charge, Data, communication and more.

Cable and connection to power:

* The Innera Piatto is supplied with:
INPUT - 0.1 meter cable (HO5VV-F 3x1.5mm^2) with male
GST 18/3 connector
OUTPUT - 0.1 meter cable (HO5VV-F 3x1.5mm^2) with
female GST 18/3 connector.
In order to connect the product to power you should buy
the power cable separately.
Testing: 100% testing
continuity, polarity, insulation & earth
Certification: SII test certification
Warranty: 3 years Warranty by German registered company
Installation: No Tools required, supplied with installation
kit for attaching to a desired surface.
Please read the installation instruction
prior to installation.
Packing: each item in a box

* Only on models with power socket

PAVIX
Floor Box

- Floor Box lid enable incorporating tile / carpet / wooden floor up to 7.5mm thick.
- Top lid can be easily remove for easy maintenance (can change opening direction).
- Protected cable output in lid close state .
- Include 45x45mm module adapter for Legrand module or equal.
- Separation between modules (power / network) areas.
- Can order installation box for concrete floors.
- Adjustable* module height .

Installation configurations:
Suitable for installation in professional floors and concrete floors.

illustration: model EFB-16M
Structure & color:
PAVIX is a unique solution with high grade properties, promising long life expectation. PAVIX is gray mat.
Materials: ABS, galvanised steel.

Modules & combination:
PAVIX comes with several sizes see table.

QC: 100%
Warranty: 3 years Warranty.
Packing: each item in a box
